CONTENTS

Abstracted in: *Biological Abstracts: Bulletin Signaletique: CABS (Current Awareness in Biological Sciences); Cambridge Scientific Abstracts; Chemical Abstracts: Criminology, Penology and Police Science Abstracts; Current Contents; EMBASE/Excerpta Medica; Medline/Index Medicus; National Criminal Justice Reference Service; Police Science Abstract; Science Citation Index; PubMed; Scopus.*

Review

Skipping clues: Forensic importance of the family Piophilidae (Diptera)
D. Martín-Vega 1–5

Research Articles

The analysis of substituted cathinones. Part 1: Chemical analysis of 2-, 3- and 4-methylmethcathinone
J.D. Power, P. McGlynn, K. Clarke, S.D. McDermott, P. Kavanagh and J. O'Brien 6–12

The analysis of substituted cathinones. Part 2: An investigation into the phenylacetone based isomers of 4-methylmethcathinone and N-ethylcathinone
S.D. McDermott, J.D. Power, P. Kavanagh and J. O'Brien 13–21

Primer composition and memory effect of weapons—Some trends from a systematic approach in casework
S. Charles, B. Nys and N. Geusens 22–26

Relative effects of posture and activity on human height estimation from surveillance footage
N. Ramstrand, S. Ramstrand, P. Brolund, K. Norell and P. Bergström 27–31

Operational benefits and challenges of the use of fingerprint statistical models: A field study
C. Neumann, I. Mateos-Garcia, G. Langenburg, J. Kostroski, J.E. Skerrett and M. Koolen 32–46

No mutation but high mRNA expression of Coxsackie-Adenovirus Receptor was observed in both dilated and ischemic cardiomyopathy
E. Tatrai, K. Bedi, I. Kovalszky, I. Hartyanszky, A. Laszik, G. Acsady, P. Sotonyi and M. Hubay 47–50

Recent misconceptions about the 'database search problem': A probabilistic analysis using Bayesian networks
A. Biedermann, S. Gittelson and F. Taroni 51–60

Dynamic liveness and forgeries detection of the finger surface on the basis of spectroscopy in the 400–1650 nm region
C. Hengfoss, A. Kulcke, G. Mull, C. Edler, K. Püschel and E. Jopp 61–68

Spatially offset Raman spectroscopy (SORS) for the analysis and detection of packaged pharmaceuticals and concealed drugs
W.J. Olds, E. Jaatinen, P. Fredericks, B. Cletus, H. Panayiotou and E.L. Izake 69–77

Application of capillary electrophoresis to examination of color inkjet printing inks for forensic purposes
M. Szafarska, R. Wietecha-Posłuszny, M. Woźniakiewicz and P. Kościelniak 78–85

Determining dental sex dimorphism in South Indians using discriminant function analysis
K. Anuthama, S. Shankar, V. Ilayaraja, G.S. Kumar, M. Rajmohan and Vignesh 86–89

Evaluation of vapor profiles of explosives over time using ATASS (Automated Training Aid Simulation using SPME)
S. Moore, W. MacCrehan and M. Schantz 90–95

Usefulness of post mortem determination of serum tryptase, histamine and diamine oxidase in the diagnosis of fatal anaphylaxis
D.E. Mayer, A. Krauskopf, W. Hemmer, K. Moritz, R. Jarisch and C. Reiter 96–101

Toxicological investigations of drivers killed in road traffic accidents in Norway during 2006–2008
H. Gjerde, A.S. Christophersen, P.T. Normann and J. Mørland 102–109

Sturdivan's formula revisited: MRI assessment of anterior chest wall thickness for injury risk prediction of blunt ballistic impact trauma
M. Frank, V. Schorge, K. Hegenscheid, A. Angermaier, A. Ekkernkamp, N. Hosten, R. Puls and S. Langner 110–114

Seasonal and habitat abundance and distribution of some forensically important blow flies (Diptera: Calliphoridae) in Central California
A. Brundage, S. Bros and J.Y. Honda 115–120

Under-recording of ethanol intoxication and poisoning in cause-of-death data: Causes and consequences
R.A. Lahti, A. Sajantila, H. Korpi, K. Poikolainen and E. Vuori 121–125

Survival of submerged blowfly species and their parasitoids: Implications for postmortem submersion interval
C. Reigada, J.Z. Gião, L.A. Galindo and W.A.C. Godoy 126–129

The effect of relative humidity on the effectiveness of the cyanoacrylate fuming process for fingermark development and on the microstructure of the developed marks
M. Paine, H.L. Bandey, S.M. Bleay and H. Willson 130–142
Investigation of hydrogen cyanide generation from the cyanoacrylate fuming process used for latent fingermark detection
T.C. Fung, K. Grimwood, R. Shimmon, X. Spindler, P. Maynard, C. Lennard and C. Roux 143–149
The effect of zinc chloride, humidity and the substrate on the reaction of 1,2-indanedione–zinc with amino acids in latent fingermark secretions
X. Spindler, R. Shimmon, C. Roux and C. Lennard 150–157
Factors determining yield and quality of illicit indoor cannabis (*Cannabis* spp.) production
W. Vanhove, P. Van Damme and N. Meert 158–163
Initial study of arthropods succession and pig carrion decomposition in two freshwater ecosystems in the Colombian Andes
M. Barrios and M. Wolff 164–172
The importance of carcass volatiles as attractants for the hide beetle *Dermestes maculatus* (De Geer)
C. von Hoermann, J. Ruther, S. Reibe, B. Madea and M. Ayasse 173–179
Estimating the pre-appearance interval from temperature in *Necrodes littoralis* L. (Coleoptera: Silphidae)
S. Matuszewski 180–188
Mixed effects modelling for glass category estimation from glass refractive indices
D. Lucy and G. Zadora 189–197
The estimation of the age of a blood stain using reflectance spectroscopy with a microspectrophotometer, spectral pre-processing and linear discriminant analysis
B. Li, P. Beveridge, W.T. O'Hare and M. Islam 198–204
Severity of vehicle bumper location in vehicle-to-pedestrian impact accidents
Y. Matsui, M. Hitosugi and K. Mizuno 205–209
D-dimer assays for the identification of menstrual blood
D.J. Baker, E.A. Grimes and A.J. Hopwood 210–214
Combined use of liquid chromatography–hybrid quadrupole time-of-flight mass spectrometry (LC–QTOF-MS) and high performance liquid chromatography with photodiode array detector (HPLC–DAD) in systematic toxicological analysis
S. Broecker, F. Pragst, A. Bakdash, S. Herre and M. Tsokos 215–226
Cannabinoids in oral fluid following passive exposure to marijuana smoke
C. Moore, C. Coulter, D. Uges, J. Tuyay, S. van der Linde, A. van Leeuwen, M. Garnier and J. Orbita Jr. 227–230
Investigation into the use of photoanthropometry in facial image comparison
R. Moreton and J. Morley 231–237
A comparative study on the concentrations of 11-nor-Δ^9-tetrahydrocannabinol-9-carboxylic acid (THCCOOH) in head and pubic hair
E. Han, H. Choi, S. Lee, H. Chung and J.m. Song 238–241
Analysis of illicit cocaine and heroin samples seized in Luxembourg from 2005–2010
S. Schneider and F. Meys 242–246
Postmortem redistribution of Δ^9-tetrahydrocannabinol (THC), 11-hydroxy-THC (11-OH-THC), and 11-nor-9-carboxy-THC (THCCOOH)
M.G. Holland, D.M. Schwope, R. Stoppacher, S.B. Gillen and M.A. Huestis 247–251
Optimization and validation of CEDIA drugs of abuse immunoassay tests in serum on Hitachi 912
K.M. Kirschbaum, F. Musshoff, R. Schmithausen, S. Stockhausen and B. Madea 252–255
Effect of position and weight force on inferior vena cava diameter – Implications for arrest-related death
J.D. Ho, D.M. Dawes, J.C. Moore, L.V. Caroon and J.R. Miner 256–259
On the use of IRMS in forensic science: Proposals for a methodological approach
N. Gentile, L. Besson, D. Pazos, O. Delémont and P. Esseiva 260–271

Online Extra

Forensic Anthropology Population Data
Age and sex related measurement of craniofacial soft tissue thickness and nasal profile in the Chinese population
F. Chen, Y. Chen, Y. Yu, Y. Qiang, M. Liu, D. Fulton and T. Chen 272–272
Age estimation using CT imaging of the third molar tooth, the medial clavicular epiphysis, and the spheno-occipital synchondrosis: A multifactorial approach
R.B. Bassed, C. Briggs and O.H. Drummer 273–273
Mechanisms of hyoid bone fracture after modelling: Evaluation of anthropological criteria defining two relevant models
J. Pollard, M.D. Piercecchi-Marti, L. Thollon, C. Bartoli, P. Adalian, A. Bécart-Robert, G. Tournel, V. Hédouin, M. Panuel, D. Gosset and G. Leonetti 274–274
Age estimation in Indians from extracted unsectioned teeth
A.B. Acharya and K.K. Kumar 275–275
Comparative study of Greulich and Pyle Atlas and Maturos 4.0 program for age estimation in a Portuguese sample
C. Santos, M. Ferreira, F.C. Alves and E. Cunha 276–276

Case Reports
The unique histology of methamphetamine cardiomyopathy: A case report
S.B. Karch e1–e4
Seven cases of fatal aconite poisoning: Forensic experience in China
Q. Liu, L. Zhuo, L. Liu, S. Zhu, A. Sunnassee, M. Liang, L. Zhou and Y. Liu e5–e9

Additional material available online.

Surprising hair analysis results following acute carbofuran intoxication
S. Dulaurent, J.M. Gaulier, K. Zouaoui, C. Moesch, B. François and G. Lachâtre e10–e14
Sudden death of an alcoholic elderly man with acute esophageal necrosis (black esophagus)
K. Unuma, K. Harada, T. Funakoshi and K. Uemura e15–e17
Post-mortal lesions in freshwater environment
S. Vanin and S. Zancaner e18–e20

Rapid Communications
A complete passive blind image copy-move forensics scheme based on compound statistics features
F. Peng, Y.-y. Nie and M. Long e21–e25
Estimating equivalent cutoff thresholds for drugs in blood and oral fluid using prevalence regression: A study of tetrahydrocannabinol and amphetamine
H. Gjerde and A.G. Verstraete e26–e30

Short Communications
Spinal nerve root β-APP staining in infants is not a reliable indicator of trauma
W. Squier, I. Scheimberg and C. Smith e31–e35
Age estimation of bloodstains: A preliminary report based on aspartic acid racemization rate
S. Arany and S. Ohtani e36–e39
Report on the analysis of common beverages spiked with *gamma*-hydroxybutyric acid (GHB) and *gamma*-butyrolactone (GBL) using NMR and the PURGE solvent-suppression technique
C.T. Lesar, J. Decatur, E. Lukasiewicz and E. Champeil e40–e45

Additional material available online.
